Work Experience

BuildWithin / Senior Product Designer (Contractor)

OCT 2025 - AUG 2026, REMOTE

- Designed BuildWithin's multi-role SaaS platform end-to-end — Candidate, Talent Manager, Case Manager, Administrator, and Super Administrator — including AI-automated eligibility and document validation across the ecosystem.
- Designed two AI-conversational products on the platform: CADRE, a cyber aptitude assessment for the U.S. Department of War, and Celeste, a career agent for Talent Capital/MWCOG — publicly launched as TalentCapital.AI, reaching 83,000+ active users and recognized as Product of the Year by Technical.ly.
- Covered onboarding, AI-guided conversational assessment, and matching to opportunities (federal cybersecurity roles for one, regional jobs and training for the other).

Altafid / Lead Senior Product Designer

JUN 2022 - SEP 2025, HYBRID

- Led end-to-end design of a SaaS platform for financial advisors and investors, including onboarding, 2FA authentication, trading, billing, and investment model construction.
- Designed a native mobile app with in-app messaging (including voice messages) for clients, plus a B2B marketplace of financial products for financial institutions within the same platform.
- Led and mentored a team of 4 product designers, conducting primary research across every user archetype with interviews and Maze usability testing.
- Built the company's Design System on Untitled UI with a client-branding configuration system, and directed the Customer Journey by integrating UX with marketing, sales, and customer success.

Tekpro / UX/UI Senior Designer

MAY 2019 - JUN 2022, CHILE

- Designed user-centered e-commerce websites and checkout flows optimized for conversion and performance, managing Magento platforms and cross-functional delivery with marketing and development teams.

Alba Studio / Graphic Designer

DEC 2018 - APR 2019, CHILE

- Developed complete brand identities, from logos and color palettes to brand manuals, and produced visual assets for print and digital campaigns, packaging, and social media for multiple clients.

CETIUC / UX/UI Designer

JUN 2018 - SEP 2018, CHILE

- Led the complete redesign of the institutional website, including information architecture, wireframes, and final UI, and defined the updated digital brand identity.

Education

Pontificia Universidad Católica de Chile / Professional Degree in Design

2012 - 2018, CHILE

Major in Strategic Design. Coursework in User Experience Design, Design Thinking, Service Design, Human-Centered Design, and Interaction Design.

IBM Skills Network / Generative AI for UI/UX Design

CERTIFIED • 3-COURSE SPECIALIZATION

Prompt engineering, AI-assisted UX/UI workflows, AI prototyping, personalization, and usability testing.

Skills

Design: Visual Design • UI/UX & Product Design • Wireframes & Prototypes • Design Systems • Customer Journey Mapping • Accessibility (WCAG 2.2)

Flows: Onboarding & KYC • Authentication (2FA) & Security • Billing & Checkout • Messaging / Chat • Conversational AI Interfaces • Multi-role Permissions

Security & Compliance: SOC 2 Type 2 • FedRAMP • WCAG 2.2 Accessibility • U.S. Federal / Government Platforms (WIOA, DoW Cyber Workforce Framework)

Prototyping: Figma • Adobe Illustrator • Adobe Photoshop • Auto Layout • Design Tokens • Component Libraries • Uizard • Voiceflow

Research: User Research & Testing • Usability Testing • A/B Testing • Data Analysis • User Interviews • Maze

Collaboration: Agile / Scrum • Miro • Cross-functional & global teams • Mentoring junior designers • Claude & GenAI-assisted workflows • Prompt Engineering
